Features

- **A well-balanced curriculum** provides ample amounts of input in each of the various language domains for students to practice listening, speaking, reading and writing skills together.
- **A systematic unit structure** enables students to deepen their language learning while expanding their knowledge about each topic.
- **Engaging activities** give students the opportunity to express and encounter a variety of personal opinions, promoting competency and retention through repeated practice.
- **A focus on functional language** introduces numerous forms of practical, communicative language taken directly from real-life situations. This provides sufficient opportunities for students to practice using newly-acquired vocabulary and structures in the context of everyday scenarios.
- **A step-by-step approach** allows students to gradually develop and strengthen competency. At each step, new content is presented and then incorporated into larger comprehensive exercises to consolidate students' learning.

Comprehension

1. Choose the best answers.

- What is the main idea of the passage?
 - a. Mars and Earth look very similar.
 - b. Mars and Earth are very different.
 - c. There have been wars on both Mars and Earth.
 - d. Mars and Earth share similarities, but also have differences.
- The word *simply* in the passage is closest in meaning to
 - a. just
 - b. fast
 - c. easily
 - d. interestingly
- What is the meaning of "tid"?
 - a. soil
 - b. the red planet
 - c. soil
 - d. god or goddess
- Which is NOT true about Earth?
 - a. It is closer to the Sun than Mars is.
 - b. It is bigger and heavier than Mars.
 - c. Its gravity is stronger than on Mars.
 - d. Its name comes from Roman mythology.
- Which is NOT true about Mars?
 - a. It is smaller and lighter than Earth.
 - b. Its orbit speed is faster than Earth's.
 - c. It has a longer year than Earth does.
 - d. It is farther from the Sun than Earth is.

2. Fill in the blanks.

- How did Mars get its name? Mars is named after the Roman _____.
- Who are Mars's two moons named after? They are named after the _____ of Ares who _____ him in battle.
- How do the size and mass of Mars compare to Earth's? Mars is about _____ of Earth's size and its mass is only _____ of Earth's mass.

Comprehension

Students' understanding of the passage is assessed through various types of questions.

Skill Focus: Compare and Contrast

Learn It

When you compare two things, you check how they are similar. When you contrast two things, you check how they are different. By comparing and contrasting details, you can organize important information in a passage more easily.

Apply It

Read and circle M (Mars) or E (Earth). Circle both if the statement is true for both planets.

- It has one moon. M E
- It orbits the Sun. M E
- Its name simply means "tid." M E
- It is named after the Roman god of war. M E

Organize It

Complete the organizer using the words from the box.

Earth	Both	Mars
<ul style="list-style-type: none"> Its name means "tid." It has one moon. It is closer to the Sun. It has _____. Its year is 365.25 days long. It is _____. Its gravity is stronger. 	<ul style="list-style-type: none"> They are _____. They orbit _____. They have moons. 	<ul style="list-style-type: none"> It is named after a god. It has two moons. It is farther from the Sun. It has _____. Its year is 687 Earth days long. It is _____. Its gravity is only a third of Earth's gravity.

smaller and lighter a faster orbit speed planets
a slower orbit speed bigger and heavier the Sun

Skill Focus

The target reading skill is introduced to teach students how to organize information in the passage. Each of the three interconnected steps helps build students' proficiency with the skill.

Workbook

Unit 1 Earth and Mars

Vocabulary Practice

A. Read and choose the correct words.

- She often forgets to put a dot / god over the j.
- The two cultures share many mass / similarities.
- Mercury orbits / weighs the Sun in less than ninety days.
- Names / One-third of the students are absent from class.
- What is the main speed / difference between the two sports?
- Jupiter is known as the largest soil / planet in our solar system.
- Susan means / accompanies her grandmother to the doctor's office.
- The largest African elephants can weigh / share up to 6,350 kilograms.

B. Choose the best words to complete the sentences.

- What are the main _____ of this table?
 - a. days
 - b. moons
 - c. features
 - d. goddesses
- Winning the lottery is _____ a matter of luck.
 - a. very
 - b. simply
 - c. suddenly
 - d. immediately
- The painting is based on a story from Roman _____.
 - a. planet
 - b. mythology
 - c. weight
 - d. moon
- The _____ of Jupiter is much stronger than that of Earth.
 - a. size
 - b. mass
 - c. speed
 - d. gravity

Sentence Practice

1. The Roman | Mars | god of war | is named after | .

2. features | only a few | and Mars | These are | of Earth | .

3. shining | Do you see | in the night sky | that small red dot | ?

4. you would | of your weight on Earth | a third | only weigh | So on Mars, | !

More Reading Comprehension

Choose the best answers.

Another thing these planets share is that they both have moons. Earth has one moon, _____ Mars has two, Phobos and Deimos. In Greek mythology, Phobos and Deimos are the sons of Ares, the Greek god of war. They often accompanied him in battle. Just like their moons orbit them, Earth and Mars orbit the Sun. Compared to Mars, Earth is closer to the Sun and has a faster orbit speed. So a year on Mars is 687 Earth days long. It takes Earth just 365.25 days to go around the Sun.

- Which fits best in both blanks?
 - a. so
 - b. because
 - c. while
 - d. therefore
- Who does *him* refer to?
 - a. Mars
 - b. Ares
 - c. Phobos
 - d. Deimos

Through additional practice questions, students review key words and key sentence patterns they have learned in the student book. Also, more reading comprehension questions are provided to enhance students' understanding of the passage.
