- Beautiful full-colour images
   from around the world
- Simple and clear language
- Perfect for comparing and contrasting cultures from around the world
- A great choice for circle time discussion
- Helps develop a global perspective

Venice is a city in northern Italy. Many people think it is a beautiful city. Some of the world's greatest artists helped to make some of the buildings.

One of the most interesting things about the city is its lagoon. Venice was built on water. The water can be used for travelling around the city. Many people take boat rides when they visit.

In the Arctic In the Sea

- Beautiful vector renders of natural scenes alongside realistic photographs
- Levelled and easy-to-read language
- Engaging and educational
- Excellent companion to lessons about habitats, animals and natural science
- Combines informative content with fun and simple attention-focusing activities

WHERE AM I?

Can you find me? I am somewhere that is hot and dry. Lorem ipsum quidem rerum facilis est et expedita distinctio. Nam libero tempore, soluta nobis est eligendi.

#### Six-eyed spider

I am a six-eyed sand spider. I hide in the soft sand nihil impedit quo minus id quod maxime placeat facere possimus, omnis voluptasassumenda est, omnis dolor repellendus
