

The Perfect Trap

The timeless fable of the fox and the crow is reimagined in modern verse.

If flattery should come your way,
Take heed of what they say.
For honeyed words might hide a plot:
Be wise and doubt a lot.

After a long journey, a beautiful and daring crow (or so he believes) stumbles upon a piece of **succulent cheese**.

But a cunning fox has already set her sights on that delicious treat, and she knows exactly how to get it. Will the crow's vanity lead him astray, or will he learn the hard way that not all compliments are **sincere**?

Reflective Activities

The story extends beyond the final verse with engaging activities that prompt children to reflect on the narrative and reinforce the lessons learned.
