Blue's Planet

'AUSTRALIA'

RRP: £7.99 | Paperback | 332 pages | 198 x 128 mm | Age: 9+

Blue has always dreamt of joining her parents as they document environmental issues around the world. Finally, she gets her wish.

COMING
2024

- TITLE: Blue's Planet: Australia
- ISBN: 9781802630015

A hot summer in Australia brings Blue face to face with the climate crisis. From volunteering at a wildlife hospital to joining a koala rescue mission, she's determined to make a difference.

But with bushfires raging out of control, no animal is safe – and no human either.

LOOK INSIDE!

history when there were baby kangaroos in slings made of pillowcases that mimicked their mothers' pouches? Not Blue. She would remember lifting them gently down to the ground and encouraging them to hop around on their short legs, and she would think fondly of feeding them formula milk from a bottle. Some of the older joeys, their legs already powerful, could be quite a handful.

In with the kangaroo joeys were two brush-tailed rock-wallabies, their long dark tails lolling behind them as they bounced. These agile climbers were used to scrambling over boulders and even cliff faces, so one of Blue's first jobs was to ensure that their paddock was secure. Just a few days into her volunteering, she carelessly dropped a bucket upside down by the gate in their enclosure. Before she knew it, one of the wallabies

was scrambling up it and sniffing at the fence, easily capable of hopping away to freedom. Blue raced back to the gate just in time to coax him down as he tensed his legs to spring over.

124

Wallaby feet fascinated Blue. They had huge, thick, rough pads to protect them from rocky terrains. In the best of the summer afternoons, she'd sometimes sneak down to their paddock to sit in the shade with them. The animals seemed totally at ease with her presence, even voluntarily plonking their small furry bodies down right next to her.

The other residents included several little sugar gliders. They were shorter than the length of her arm, each with a long, thick, bushy tail. Each of their enclosures was stuffed with branches for climbing, and during the middle of the day they would tuck their tiny bodies high up out of the way, becoming active later in the afternoon. A few times, when she was cleaning out the pens, Blue would see one blinking at her, its wide eyes shining with curiosity. She would leave them sugary treats such as apricots, mangoes or sweet potato, which they would devour like children scoffing sweets. She loved the way their tails moved, curling around branches and gripping tight, almost like an additional leg.

The SONGS You've NEVER Heard

RRP: £8.99 | Paperback | 368 pages | 198 x 128 mm | Age: 14+

How can two lost girls find their voices in a world that is determined to keep them silent?

Dual-written by a BAFTA-winning children's composer and a K-pop hit writer, *The Songs You've Never Heard* is a YA novel that champions sisterhood, musical talent and body positivity.

- TITLE: The Songs You've Never Heard
- ISBN: 9781782266754

Meg McCarthy seems to be everything Alana Howard is not: rich, glamorous and - thanks to Caspar, her world-famous pop star brother - a social media influencer that every brand wants to sponsor.

But while Meg is feeling trapped by the squeaky-clean McCarthy brand, plagued by online haters and too terrified to share her own talent with the world, songwriter Alana doesn't seem to be scared of standing out.

When Meg and Alana's worlds collide, they quickly learn that appearances can be deceiving.

We are extremely proud that this title was named on the YA Book prize 2023 shortlist.

The Songs You've Never Heard, has also been optioned for a Screenplay.
